

NORRBY SCIENCE CLUB

Are you inquisitive and curious about how things work? Do you enjoy doing experiments and testing new things? Then you should join Norrby Science Club at Navet Science Center.

Who can participate?

You can participate if you are in grade 4-6 at Särila, Hestra Midgård, or Byttorp schools, or if you live in Norrby. You don't need any prior knowledge to join the club.

When, where and how?

We meet on Wednesdays between 15:00 and 16:30 over six weeks. We call our meetings "camps", and we always meet at Navet, Skaraborgsvägen 1A, Borås.

Camp 1: For pupils in grade 4. Starts on 21 September and ends on 26 October.

Camp 2: For pupils in grades 5 and 6. Starts on 9 November and ends on 14 December.

At our camps, we test a lot of cool stuff and we do plenty of experiments. Afternoon snacks are provided.

Information for adults:

Registration

Visit www.navet.com/norrby-science-club to sign up your child. If there is a lot of interest, we may need to randomise placement. The last day to sign up is 14 September, and your child's placement will be confirmed 19 September.

The contact person is Nina Svensson, Club Leader: nina.svensson@navet.com

More information about Norrby Science Club

Norrby Science Club is a collaboration between Navet Science Center, Bostäder i Borås, and Fritids- och folkhälsoförvaltningen in the City of Borås. The aim is to create meaningful extracurricular activities for children. The club is for middle school children and runs during the autumn and spring school terms. Through fun and experienced-based activities, children will learn more about science, mathematics, technology, and sustainable development.
